All procedures were performed in accordance with the IMR Quality Manual, current revision, and related procedures; and the PWA-MCL Manual F-23 and related procedures. The information contained in this test report represents only the material tested and may not be reproduced, except in full, without the written approval of IMR, Inc. IMR, Inc. maintains a quality system in compliance with the ISO/IEC 17025:2005 and is accredited by the American Association for Laboratory Accreditation (A2LA), certificates #1140.01 and #1140.02. IMR, Inc.'s liability to the customer or any third party is limited to the amount charged for services provided. All samples will be retained for a minimum of 6 months and may be destroyed thereafter unless otherwise specified by the customer. The recording of false, fictitious, or fraudulent statements or entries on this document may be punished as a felony under federal statutes.

Automated PACKAGING SYSTEMS

February 13, 2009

Subject: Statement of compliance to the CONEG legislation

Dear Sir or Madam:

Automated Packaging Systems Inc. plastic bag products comply with the requirements of the Coalition of New England Governors (CONEG) concerning heavy metals content. The sum concentration of Lead, Cadmium, Mercury, and Hexavalent Chromium (inks and plastics inclusive) does not exceed 100 ppm. The regulated metals are not intentionally added during the manufacturing process.

Sincerely,

Paul Banfield
Corporate Safety and Environmental Manager
